BULLETIN

Continued from Page 1.

London, Sept. 29.—This afternoon's dis-
patches from Paris de-
clare the German right
wing is now retreating
from its fortified posi-
tion along the Somme
and Aisne rivers and that
the allies succeeded in
cutting the German line
of communication, leav-
ing part of General Von
Kluck's army in grave
danger. The war bureau
says it has no confirma-
tion and adds nothing to
the French afternoon
statement.

(By United Press.)

Paris, Sept. 29.—The battle which
will end the war will be fought soon,
probably before the extreme cold
weather sets in. This is the opinion
of foreign military attaches here.
They believe that it must take place
probably immediately after the battle
of the Aisne enters its decisive
stages. And the majority of them
look for simultaneous conflicts in
Belgium and west of the Rhine and
the other in the eastern theater.

French officers seem to share this
opinion. They declare there is such
a decided contrast between the spirit
of the Germans and the allies that it
is very noticeable. The French sol-
dier are absolutely confident of vic-
tory—so convinced they are the su-
periors of the Germans that the
chief difficulty is keeping the troops
from recklessly exposing themselves.
They are very cheerful and desire to
continue the offensive day and night.

That the night and day attacks on
the French left by the heavily rein-
forced German right continue with-
out any material change in the situa-
tion and that in general there has
been no change was the tenor of the
official statement issued this after-
noon. The official review issued from
the war office at Bordeaux and made
public by General Gallieni here says
that the French are making slight
progress near the Meuse. The report
says:

"The German day and night as-
saults on our left continue but all
are repulsed as made.

"In the center the Germans are
contenting themselves with shelling
our positions, the cannonading being
continuous.

"Between the Argonne and and
the Meuse the French have made
slight gains. Elsewhere there has
been very slight change."

CUBAN NEGRO KILLS WIFE

Bloomington Man Shoots Spouse in
Fit of Jealousy Today.

(By United Press.)

Bloomington, Ind., Sept. 29.—
"Babe" Medina, a Cuban negro, shot
his wife to death here this afternoon
during a fit of jealousy. He fired
five bullets into her body, any one of
which would likely have killed her.
Medina and his wife were in the
basement of the home of Alex Hirsh,
a prominent merchant here, when
they quarrelled. Medina was said to
have been prompted to the act over
jealousy of an Indianapolis negro
named George Withers. Medina is in
jail.

(By United Press.)

London, Sept. 29.—The official war
bureau this afternoon announced that

four British steamers. It said:

"The German cruiser Emden during
the last few days in the Indian ocean
has sunk the British steamers Tum-
erie, King Lud, Liberia and Foyle. It
captured the British steamer Crise-
dale but later released her to carry
the crews of the steamers sunk to

many points in Germany apparently
they are being massed for offensive
operations.

WILL BREAK THE ENEMY'S LINES

German Generals in France Report to
Berlin Resistance is Slowly
Slackening.

FIGHTING DAY AND NIGHT

Wounded From Front Say Clashes
Are Most Bitter—Time Not Al-
lowed to Remove Injured.

(BY CARL H. VON WIEGAND)

(U. P. Staff Correspondent.)

Berlin, Sept. 29.—(Via Wireless
Through Sayville L. I.) Reports here
directly from the front say the high
German military officials, directly in
charge of the campaign in France,
predict the Germans will break
through the allied lines within the
next week. The resistance is said to
be slowly slackening at several
points.

That many of the wounded who
might be saved are being sacrificed
through the scarcity of doctors at the
front was the statement made to me
today by the surgeon in charge of a
hospital train on which I came back
from Aix La Chappelle. He alleged
the chief reason for this has been the
utter disregard of the Red Cross by
the French. Of the German doctors
sent to the front, this German alleged
many have been killed or wounded
while trying to aid the suffering along
the battle line.

The train was simply crowded to
its utmost capacity. Although many
of the wounded were very serious
cases they remained uncomplaining.
They declared, however, that the con-
ditions at the front were hellish. They
described the fighting as the most bit-
ter in the history of the world. Day
and night it continues. First there is
an artillery duel. Then there is an
attempted charge by one side or the
other that is checked either with ma-
chine guns or with bayonet. At all
times the artillery throws its rain of
shrapnel and exploding shells on the
trenches.

Everyone is compelled to remain in
the trenches, most of them partially
filled with water at all times. The
slightest movement at any point on
he line in the signal for a rain of
shells to come against that very
point. The groans and cries of the
wounded are terrible and have great-
ly disheartened many of the soldiers
who are forced to listen to them and
to realize that that they can do noth-
ing to relieve the suffering.

Only at night it is possible to make
any attempt to gather up the wound-
ed, according to the stories told me
by these soldiers. Then if the slight-
est noise is made the rapid fire guns
immediately are trained on those who
are carrying off the wounded and
many are themselves killed.

The morals of the troops continues
excellent, the surgeon in charge told
me, and they are constantly buoyed
up by the expectation of ultimate
victory.

CHOSEN TO TRY INJUNCTION SUIT

Judge John D. Megee of This City
Will Hear Case Brought by May-
or Joe Bell of Indianapolis.

TO PREVENT ACT HE OPPOSED

Indianapolis City Clerk Would Em-
ploy Attorneys to Codify the
City Ordinances.

The Indianapolis News has the fol-
lowing concerning the appointment of
Judge John D. Megee of this city as
special judge to hear a case in Indi-
anapolis:

John D. Megee, judge of the Rush
county circuit court, has been selec-
ted to sit as judge in Marion county
in the trial of the injunction suit
brought in Judge Rochford's room of
the superior court by Mayor Bell to
prevent Thomas C. Riley, city clerk,
employing attorneys to codify the
city ordinance as provided in a city
ordinance passed over the mayor's
veto.

Megee was appointed by Governor
Ralston as judge of the circuit court
of Rush county when a division was
made of the former Shelby-Rush
county circuit court. Megee had the
support of the Taggart organization
in Rush county in going after the ap-
pointment and Governor Ralston was
urged by the Taggart men to make
the appointment.

Attorneys for Riley filed a petition
a few days ago asking that Judge
Rochford transfer the case to the
circuit court. Judge Rochford said
he would not do this, but he would
appoint as judge any attorney ac-
ceptable to Riley and the mayor. A
list of well known attorneys in Indi-
anapolis was submitted by Riley's at-
torneys, but William A. Pickens cor-
poration counsel, said Mayor Bell did
not desire to be in the position of
selecting the judge to try the case.

Judge Rochford, Friday, announce-
d the names of Judge Megee, Judge
Earl Sample, of the Hancock circuit
court, and Judge Edward Dupree of
the Johnson circuit court, giving the
attorneys on each side of the case the
right to strike off one name. Riley's
attorneys struck off the name of
Judge Sample, and the plaintiff
struck off Dupree.

Judge Sample recently was impor-
ted by Judge Rochford to sit as
special judge in the hearing of three
liquor cases.

ORANGE CHILDREN RECOVER

Richardson Boy and Two Sisers Able
to Return Home.

Alden, Vera and George Richard-
son, children of Mr. and Mrs. F. S.
Richardson of near Orange, arrived
home last evening from Indianapolis
where they have been taking the Pas-
teur treatment. The three children
were bitten by a dog, which showed
signs of rabies, and to be on the safe
side, were taken to Indianapolis and
given the treatment. They were at-
tacked by the dog while on the way
home from school on the evening of
September 8 and were taken to Indi-
anapolis two days later. The children
are now said to be out of danger.

TWO BIG LAW SUITS ARE RECEIVED HERE

Cases Brought by Franklin County
Commissioners Sent to Rush
County on Change of Venue.

TOTAL DEMAND IS \$5,714.10

Two suits against the Lanagan
Construction company and the Illi-
nois Surety company on bonds
brought by the board of commis-
sioners of Franklin county have been re-
ceived in the local court on a change
of venue from that county. The total
demand in the two suits is \$5,714.10.

It is alleged that two road con-
tracts awarded to the Lanagan Con-
struction company by the Franklin
county commissioners were never
completed according to the plans and
specifications and the bond company
made a party to the suits because the
bond was given for the completion of
the contracts. In one of the suits it
is alleged that the road was not com-
pleted until two hundred days after
the time limit established by the board
and that the commissioners were to
receive five dollars a day for each
and every day that the road was not
completed after the time set.

CONNERSVILLE TO PLAY TENNIS HERE

Two High Schools Will Stage Con-
test on Country Club Courts
Either Friday or Saturday.

ELIMINATION TRIALS ON

Arrangements have been made for a
tennis contest between the Rushville
and Connersville high schools on the
Rushville Gun and Country club
courts east of the city. The games
will be played either Friday after-
noon or Saturday, the date having
not been definitely decided on as yet.
Earl Marlatt, a high school instruc-
tor, is coaching the local players and
hopes to put up a creditable team for
the doubles with the visitors. It is
undetermined whether or not there
will be any singles in the contest.

The elimination trials for repre-
sentation on the Rushville high
school were to begin on the country
club courts this afternoon. There are
a number of good tennis players in
the high school and they expect to
take the scalp of the visitors. The
high school asked the privilege of us-
ing the country club courts for the
trial events and for the main contest
as well and permission was granted.

PLAINTIFF TO REST LATE TODAY

Indications Were That All of Evi-
dence Would be Introduced by S.
H. Murphy in Damage Suit.

DEMANDS \$11,200 OF T. H. I. & E.

Jury Sent Out This Morning While
Attorneys Argue Question of
Admission of Evidence.

The damage suit of Samuel H. Mur-
phy, president of the Straughns bank,
against the Terre Haute, Indianapo-
lis and Eastern Traction company, for
personal injuries received in a grade-
crossing accident in Straughns in
1911, continues to be heard in the
circuit court. The plaintiff demands
\$11,200 and the case is being hard
fought on both sides.

The plaintiff's attorneys expected
to complete their side of the case by
late this afternoon. Several wit-
nesses have testified for Murphy. The
speed of the car, according to the
witness, was anywhere from 18 to 40
miles an hour and all have stated
that they did not hear the car sound
the whistle or the gong. The auto-
mobile in which Murphy was riding
at the time was carried about sixty
feet by the car before it was brought
to a stop.

A lengthy argument took place this
morning over the introduction of an
ordinance, in force at Straughns
at the time, regulating the speed of
traction cars. The defense objected
and Judge Megee sent the jury out of
the room while the argument was
heard. The court ruled that the tes-
timony was proper.

A record was made late yesterday
afternoon by the court in a suit on
notes filed by Willard D. Root against
Lawrence M. Root. The suit was filed
late yesterday afternoon and was
heard immediately by Judge Megee.
Mr. Root brought suit against his son
on five notes, the total demand being
\$4,700. The defendant appeared in
court and confessed judgment. The
court found for the plaintiff in the
sum of \$4,227.74 and \$290.92 attor-
ney's fee.

A Logical Woman She Admits It

Dear John:

I have your letter, and I am
so glad that you found every-
thing satisfactory.

When you asked me, before
you left town so hurriedly, to
buy you a few of the things you
needed, and send them on to you
the commission rather frightened
me—you are so particular.
Shall I tell you what I did?

First I made out a list of just
what I wanted, and then I
studied very carefully the adver-
tising columns of the daily news-
papers. I compared the prices
and values, checking off from
my list the things that I wanted,
and then I shopped.

And—here is the great won-
der of it—I found those adver-
tising pages to be GUIDES! I
could never have accomplished
what I did without them.

It has convinced me that even
experience in shopping is not
absolutely necessary if one will
only make a close study of the
daily newspapers.

ical!

Latest Reports on New York Primary

Indicate Nomination of Glynn and Whitman..

BOTH HAVE BIG MAJORITY

Republican Senatorial Nomination

Still in Doubt With Vote Almost All Counted.

(By United Press.)

New York, Sept. 29.—The three party machines were apparently successful in the first popular state-wide primaries held in New York yesterday, according to latest returns today.

The three regular candidates for the Democratic, Republican and Progressive gubernatorial nominations, respectively were named as expected. They are:

Democrat—Governor Martin H. Glynn, with an estimated plurality of over 100,000, and a probable majority of 85,000 over John A. Hennessy, the anti-Murphy candidate.

Republican—District Attorney Charles S. Whitman, with an estimated plurality of about 45,000 or 50,000, a margin that his campaign managers say is surprisingly large, over Harvey D. Hinman and Job E. Hedges who ran in that order.

Progressive—Frederick M. Davenport with a majority of about 2,250 over ex-Governor Sulzer, who, being uncontested for the Prohibition nomination will be a candidate at the regular election. Sulzer today refused to admit defeat, saying he would win "if there is an honest count."

James W. Gerard appears to have won the Democratic senatorial nomination by approximately 115,000, with six counties still missing. Franklin D. Roosevelt ran a fair second and James S. McDonough third.

The Republican senatorial nomination may be decided only when the complete returns are in. Ballots tallied up to 7 o'clock this morning

High School Song Sung First Time Today

The Misses Henrietta Coleman, Genieve Brown and Helen Scott, composed a high school song while on their way home from Europe last month. The song has been printed and was sung for the first time at the regular chapel hour this morning. The song was received enthusiastically by the high school pupils. The words are as follows:

TUNE: Believe Me, If All Those Endearing Young Charms

Oh, Rushville High School, thy dear name we love,

Of thy lusty young strength we can tell;

And to those who come after us, we would bequeath,

Thy fair fame, to guard bravely and well.

They will come hundreds strong, in the long future years

And will yield thee affection unfeigned,

May they shield thee, protect thee, thy honor uphold

Which we leave, as we found it—unstained.

seem to indicate however, that unless

up-state returns show a reversal, James W. Wadsworth will beat William M. Calder of Brooklyn, by a very small margin. Calder's great strength in Brooklyn and New York, resulting from the regular organization backing him in those places, is chiefly responsible for the closeness of this race.

Brainbridge Colby, Progressive, had no rival for the senatorial nomination in his party.

With returns slowly sweeping in today, it appears that less than 50 per cent of the enrolled voters took advantage of the primaries. The Democratic vote even in New York was not more than 40 per cent while the Republican vote was not more than one third of the party enrollment.

TRAINS COLLIDE IN NEW YORK SUBWAY

Three Men Receive Fatal Injuries and 20 Firemen Are Overcome When Trains Catch Fire.

MOST SERIOUS MISHAP YET

(By United Press.)

New York, Sept. 29.—One of the most serious accidents in the history of the New York Subway system, which has been remarkably free of mishaps, occurred early today when two trains collided underneath One Hundred and Forty Second Street, the Bronx.

Three men received injuries which are expected to prove fatal. The trains took fire and in fighting the flames, twenty firemen were overcome by the dense smoke which choked the tunnel. One hundred passengers on a train following those which collided were thrown into a panic and fought the guards until the doors were opened. They then walked seven blocks back through the smoke-filled tunnel.

One passenger was badly bruised when the rear train came to a sudden stop after the collision of the trains ahead.

Good Things Never Sell Below Par

But many an inferior article is sold for twice its worth. This is especially so in vehicles. Very few dealers sell buggies at one price to all. We do and everybody pays the same. That is the reason our buggies are lower priced than our competitors. We have but one price and it has to be low enough to impress our customers and get the business. We want you to see our storm buggies. They are the best that can be bought and we believe we have the only door that can not and will not rattle. You can not find a better storm buggy with a better reputation for road service or a finer looking one than we have but you can find higher priced ones that simply mean more profit tacked on. A Few Bold Facts for Indiana Taxpayers.

The total expenses of the government of the state of Indiana during 1908, the last year of the last Republican administration, was \$4,724,253.39. In 1913, under a Democratic administration of the state's affairs, the total expense was \$4,966,168.37, an increase of \$241,914.98. This is one of the reasons why the Democratic state legislature of 1913 saw fit to raise the state tax levy.

Here are some figures from the official state records that show very plainly that the taxpayers of Indiana are paying dearly for the present Democratic brand of state government. In 1908, during the last year of the last Republican state administration, the salaries and expenses of all regular standing boards and commissions totaled \$242,568.02. In 1913, under Democratic rule, the salaries and commissions of all regular standing boards and commissions totaled \$428,521.60, an increase of \$185,953.58, or 76.6 per cent.

Why should the taxpayers of Indiana pay \$185,953.58 more in salaries and expenses for standing boards and commissions in one year under a Democratic administration than was paid during the same length of time under a Republican administration? This is another one of the big reasons why your taxes are so high.

Why should the legislative session of 1907, under a Republican administration cost but \$130,000, while the session of 1913, under a Democratic administration, cost the taxpayers \$162,000? Both sessions were sixty days in length and there were the same number of members in both houses in the session of 1907 as there were in the session of 1913.

The truth of the matter is that most of the increase in the cost of the Democratic session went to doorkeepers and clerks who were not needed—employees whose hardest work was to draw their salaries. There were men on the payroll of the last state legislature at straight salary for the full session who did not average one day in Indianapolis each week during the session.

A vote for the Democratic state ticket this year will be interpreted by the Democratic politicians as an approval of this reckless expenditure of the taxpayers' money.

POPULAR CANDIDATE

JOB FREEMAN.

Job Freeman, of Terre Haute, Republican nominee for Treasurer of State, is one of the best known coal operators in Indiana. His treatment of his employees has always been so fair that the miners of Indiana are now enthusiastically supporting his candidacy. A few years ago Mr. Freeman gave a handsome new residence in the city of Linton, to the miners for a hospital. The need for such an institution had long been felt, as the nearest modernly equipped hospital to this mining field was at Terre Haute, and the time necessary to carry a wounded miner to that city often cost a life. Mr. Freeman is one of the most popular men ever presented by a party for a State office. His business experience and success make him an ideal candidate for this highly important office.

WAYS TO REDUCE RESERVE FUNDS

Connersville News Says Rush County Banks Might Study Methods of Indiana's Officials.

OR STARTED NEWSPAPERS

The bank at Mays, Rush county, woke up a few mornings ago to find itself famous, says the Connersville News. It read in public print that it had been accused by no less a personage than the president's son-in-law, Secretary McAdoo, of helping to check the speed of the national ship of state by keeping in its strong box somewhat more than half the money entrusted to its care by the farmers of that vicinity. Now Mays, Indiana, is not as big as Chicago, therefore such distinction is worth while. Banks at Rushville and Richmond have similarly offended but anything may happen in such big cities. In mitigation, it is pleaded by and for the Rushville banks that they couldn't help it.

"That may be all right as far as it goes but there are plenty of ways of reducing a surplus of which both this state and nation seems to have such antipathy, at this time. They might have employed cashiers with get-rich-quick and migratory tendencies. They might have started a couple of newspapers or they might have studied closely the methods employed by Indiana state officials by which millions are made to disappear faster than the county treasurers can get their clutches on them in the way of tax.

Constitutionalists in Washington Saw

Carranza—Villa Trouble Will

LATTER WILL WIN HIS POINT

Retirement of Carranza as First

Chief and Potential Candidate

For President Foreseen.

(By United Press.)

Washington, Sept. 29.—Members of the constitutionalists junta here have information, it was stated today, on which they base belief amounting to conviction that the Villa-Carranza split will be healed within forty-eight hours. Retirement of Carranza as first chief and also a potential candidate for president—a complete capitulation to Villa's demands—will be the solution, it is understood.

There will be no war, said one member high in Constitutional circle today.

Postponement of the Torreon conference set for Oct. 1, until Villa and Carranza "peace commissioners" settle the personal differences of their leaders was rumored here today. All information pointed to selection of Fernando I. Galderon, a Villista, as Carranza's probable successor.

Zapata's protest to General Funston, against surrendering Vera Cruz to a Carranza representative complicated peace plans. Officials also viewed with apprehension the warlike attitude of Zapata and other revolts of petty chieftains against both Carranza and Villa. Possibility of brigandage and sporadic revolutionary movements was the unfavorable surface indications.

Customer Entering Tea Store in Akron, Ohio Discovers Body of Vinnie Becker, a Clerk.

POLICE CAN'T SOLVE CRIME
Cash Register Looted and One of Girl's Fingers Chopped off to Get Ring—Note Left

(By United Press.)
Akron, O., Sept. 29.—Police and detectives working all night on the mysterious murder of Vinnie Becker, young and pretty girl clerk in a Barteges street tea store, had failed to solve the crime early today.

A customer who entered the tea store late yesterday found the girl in an adjoining room with a heavy hatchet imbedded three inches deep in her skull and suffering other wounds but still breathing.

The weapon had lodged so firmly that ordinary hands could not remove it. The girl died when it was removed at a hospital.

The victim was alone in the store, which is owned by her brother, when apparently assaulted. A desperate struggle had evidently preceded the killing.

The murderer looted the cash register before flight, police say, presumably to establish a robbery motive. The small finger on the right hand of the victim had also been chopped off, indicating that a ring had been removed in this manner.

The only clue today was a scrawled note written on store stationary reading:

"Why didn't you recognize me last night?"

Relatives of the young woman declare she had no love affair. She was an energetic church worker and extremely popular in her circle of acquaintances.

MAKING GAINS

German War Office Declares Armies Are Successful Although Resisted Stubbornly.

NO CHANGE ALONG THE CENTER
Operations in France Settle Down to Artillery Duel—Russians Balked in Prussia.

(By United Press.)
Berlin, (Via the Hague) Sept. 29.—An official statement issued at noon today by the German general staff declares that the German armies continue to make decided gains along the Meuse. While they are meeting the most stubborn resistance the German Bavarian army continues to press forward and has masked a number of Meuse forts. There is no change to report in the center. The fighting there is entirely artillery with both armies strongly entrenched.

The war office in its official statement today declared the operations in France have settled down to a general artillery duel interspersed with frequent assaults at the vital points along the line.

"While the fighting is general" the report says, "it is not apparent at any point of the line of battle that the conflict has entered into deciding stages. The German right has been subject to severe pressure but every attempt to penetrate it has been repelled with great loss to the enemy. On the centre there has been no decided change for nearly a week while on the left the fighting continues. Our forces continue to make gains along the lines of the Meuse."

ARE CLOSING IN

Though Negotiations For Adjustment Are Pushed, Actual Clash is Reported Imminent.

PAREDON IS OCCUPIED TODAY
(By United Press.)
Chihuahua, Mexico, Sept. 29.—The forces of the rival factions of the Mexican Constitutionalists party are rapidly closing in and an actual clash is said to be imminent, despite the fact that negotiations for an adjustment of the difference between General Villa and Provisional President Carranza are being pushed.
Paredon, a junction point on the railroad between Torreon and Saltillo, has been occupied by a Villista brigade of 5,000 men and Zacapetas has been occupied by Villa also. This

brings them close to Saltillo, which is a strong position of Carranza's

If you like thrilling adventure, read "K". If you like a really moving love story, read "K". If you like a completely baffling mystery with a solution amazing in its cleverness, read "K". If, above all, you want to make the acquaintance of the most fascinating, lovable character of recent fiction, read "K". From a dozen points of view "K" is the biggest, finest story of the year.

It is by far the best work of a writer with a long list of big successes already to her credit. Perhaps you have read and enjoyed "The Circular Staircase", or "Seven Days", or "Letitia Carberry", or "The Man in Lower Ten". Maybe you know "The Afterhouse" or "The Street of Seven Stars". "K" ECLIPSES THEM ALL.

Don't fail to read this great story!

Mary Roberts Rinehart's Greatest Novel

THIS great novel—the three big opening chapters of which we are now offering at the phenomenal introductory bargain price described below—is alone worth far more than the amount of a subscription to McClure's. But in addition to "K", the magazine is packed for the fall and early winter months with a wealth of good reading unequalled in American publishing. There is a tremendous novel by Samuel Merwin, entitled, "The Honey Bee, A Story of a Woman in Revolt". The heroine of this story is in business; an efficient, high salaried worker who, finding that her work only half fills her life, flouts conventions in a desperate attempt to make the conditions of her existence conform to the desires of a woman's heart. Mr. Merwin established for himself a high place with McClure readers by his famous "Miss Austin" stories and "Anthony, the Absolute". Jeffrey Farnol has just finished his latest and best story, surpassing in interest even his "Broad Highway" and "An Amateur Gentleman". It will begin in an early number of McClure's. You will be sure to want the first chapters of this new and engrossing narrative. For months McClure's has had a highly organized staff working in England and America to secure the best short stories written in the English language. The result has been splendid! No more distinguished group of short story writers has ever been assembled before in any one magazine: Henry Kitchell Webster, Will Payne, Julian Street, Eugene Manlove Rhodes, Wallace Irwin, Holworthy Hall, Frank Goewey Jones, Ring W. Lardner, Arthur Train, George Kibbe Turner, Ethel Watts Mumford Grant, Edith Macvane, Will

Levington Comfort, George A. Birmingham, Perceval Gibbon, Ward Muir, Madge Jenison, Cynthia Stockley, P. G. Wodehouse, Maravene Kennedy Thompson and Alice Hegan Rice—could there be a stronger, more enticing list of contributors? All of these writers have supplied the very best examples of their work to coming issues of McClure's. For two decades McClure's has led all magazines in the quality, importance and interest of its articles. This year it offers a group of subjects and writers never equalled—Burton J. Hendrick will contribute articles on health, public and private; Waldemar Kaempfert has a remarkable series of scientific articles in preparation; William Archer has prepared a unique and startling series, entitled "Can We Foretell the Future?"; Cleveland Moffett, who writes so interestingly in many fields, is now investigating a variety of novel subjects; E. M. Woolley will continue his business stories; Robert Haven Schuchler has contributed a most unusual group of intimate studies under the title, "Your Work Is Your Life". Besides this great body of engrossing material, a notable group of artists has been formed to make McClure's a really beautiful magazine. What men are doing finer work anywhere than Clarence F. CHURCH-SCHOOL IDEA AT GARY

Plan is to Let Children Out of School for Hour Each Day to Attend Religious Instruction

WORKERS ARE TO INVESTIGATE

May Mean Possible Passing of Parochial School and Abandonment of Sunday School

(By United Press.)

Gary, Ind., Sept. 29.—The entire reshaping of the Sunday school and the possible passing of the parochial school—indeed some of the enthusiastic predict also the abandonment of the Sunday school—is forecast in

the scheme of school and church co-operation which got its first real test with the opening of the Gary school this year. Three of the church denominations have sent expert workers to Gary to work out the plan. It is held in religious circles as the most important religious development of years.

The new idea is, briefly, letting the pupil out of school an hour a day to go to his own church for religious instruction.

The churches whose national bodies have appointed men for the work have fitted up class rooms for their week-day schools and propose going at it in as business-like a way as the public schools themselves.

Several of the men were on the field the greater part of the summer working out courses of study. The new system of religious training in connection with the schools will be in full operation in half a dozen of the churches by the first of October.

The Methodist Episcopal church is represented by Harry Webb Farrington, a well known educator and church worker of Boston, Mass. The

Christian church has sent Myron C. Settle, former state superintendent of Sunday schools in Kansas and Ohio. The Presbyterian church has named John Owens, head of its social settlement work in Gary, to the new task exclusively. The Congregational church is now looking for a man. Other churches which have taken up the idea but have not been able to secure pedagogues to develop it will continue the work through their pastors.

Such thorough training in Bible subjects as an expert teacher can give in a regular period of an hour a day or even less will, it is believed, far outweigh the results of a briefer period taught, as it frequently is, haphazard in the Sunday school. This is what appeals strongly to the Gary ministers. They feel that here is a chance gradually dying out. Some of them have gone so far as to foresee the passing of the Sunday school. But the feeling of the religious work directors who are on the field is that the Sunday school with all its inspired features will be retained as a necessary part of the development of the young.

Whether the church-going plan will so meet the needs of the Catholic church that it will relieve the church of the expense of the parochial schools, remains to be seen. The pastor of the Catholic church does not think it will.

The successful working out of the church-going plan, it is the observation of the special men here, is possible only in communities that have what is called the "Gary system", which the noted Superintendent of Gary schools, William A. Wirt, has

worked out, and which he has been called to New York City the past few weeks to install there—a departure from the old set time and place for classes. Mr. Wirt uses the same class rooms for two or three classes putting several shifts of pupils through the same building during the day, thus vastly augmenting its capacity. It is this elasticity which makes possible dismissing students an hour a day for church work.

The church-school idea is the development of Supt. Wirt. The ministers took it up last year at his suggestion and after experimenting with it made the recommendation to their national bodies that resulted in the appointment of picked men to develop it.

Important to All Women Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition.

Poor health makes you nervous, irritable and maybe despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women.

Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

STRENGTHEN ON FRONTIER

Despite Denials to Contrary, Austria is Watching Her Neighbor Italy Very Closely

TROOPS ARE MANIPULATED

Those of Italian Birth or of Italian Sympathies are Transferred into Galicia

(By United Press.)

Rome, Sept. 29.—Despite the official denials of Austria, it is positively known that the Austrian forces on the Italian frontier are being strengthened and reinforced. All of the regiments made up of troops of Italian birth or from the frontier itself where Italian sympathy is strong, have been transferred to the battle in Galicia. Their places have been taken by Hungarian regiments and those from the Russian frontier who because of their pro-slavic sympathies could not be depended on to fight wholeheartedly with the Russians.

While there is no change in the official Italian attitude there is no doubt anywhere that the date for Italy to enter her war is rapidly approaching. This is believed not only by the representatives of the allies but also by the diplomatic representatives here of the Italian and German governments. They have used all of their influence to keep Italy neutral but it is noticeable that they have not been seen about the foreign office recently.

Advices from Roumanis confirm the reports of last week that the Roumanian army is being mobilized. The active army is being concentrated at the centres within striking distance of Austrian territory.

Reports are circulated here that Russia is preparing an ultimatum to Turkey demanding demobilization. It is stated that the czar's government has now definitely decided that, its Austrian campaign being successful, it is in position to withdraw large numbers of men to hold Turkey in check and that, as a result, the port will be given the choice of demobilizing or fighting.

PARK INSTALLS 2 NEW MACHINES

One Device Takes All Dust Out of Air and Other is Automatic Lathe to Improve Product.

TO BE COMPLETED IN FEW DAYS

Two new pieces of improved machinery have been installed at the Park furniture factory which will greatly improve the condition of the men working at the factory and which will better the product of the factory. One of these is a new automatic lathe and the other is a dust collecting machine.

The latter device will be of great benefit to the employees of the factory as they will no longer have to breathe into their lungs the dust from the machines. This mechanism will collect all of the dust out of the machines and pull it into the furnace.

The automatic lathe will turn anything that the Park uses. Heretofore pieces for the furniture products of the factory have been turned by hand. Under that plan it was impossible to get each piece the same size to the fraction of the inch. With the new machine there will not be the slightest variation. Both machines are being installed now and will be completed in a few days.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, also you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

DR. F. G. HACKLEMAN

Correspondent Tells of Siege of Ghent Waged By the Germans

BY WILLIAM G. SHEPHERD.

(U. P. Staff Correspondent.)

Ghent, Sept. 2, (by courier and mail to New York)—There is no other way to get to Ghent but by the Red Cross train, and the doctor told me to climb in. Ghent was four miles away.

Four miles back the German artillery was booming. German shells were smashing buildings in Malines; they had wrecked the Cathedral altar, entering through the great windows; houses and homes were going down at every deep booming sound that reached our ears. And in this Red Cross train were all the patients who had been in the hospitals at Malines, 250 of them.

"We had to take them out," explained the doctor, "because the shells were flying around the building. It's probably blown up by this time."

"We were standing in a long car on the sides of which where two layers of shelves made of stretchers hung on steel arms.

The engine was moving very slowly because the doctor explained, there were some wounded soldiers on the train who shrieked with pain at every swaying motion of the cars.

"But there's a nice great big hospital waiting for them at Ghent," the doctor said, "and we'll fix them up all right."

"We walked through the car and across the platforms to the next car. The doctor pointed his finger toward an upper stretcher in a corner.

"Dead," he said.

I looked and saw nothing but a sheet covering a form that swayed gruesomely.

"It's soldier who was shot through the head. He was dying this afternoon," the doctor continued, "but we brought him along. I suppose moving has killed him, but what were we to do? We couldn't stay at Malines."

He showed me another wounded soldier who was nearly gone. There were great bandages about his chest.

"Shot through the lungs" explained the doctor. "Those nurses are trying to stop the pain for him and let him out easy. They'll probably give him too much, but he can't live anyway."

When we reached Ghent two hours later there was a sheet over him. For him, the greatest war in history of the world had ended during the ride on the train. There were not many wounded soldiers. Most of them had been shot in the hands or arm.

"Look here, America!" a soldier on a nearby stretcher called to me. He held up an odd looking bag.

"I took that from the tin hat of a dead German officer. 'L 83' it says on it. I suppose it was his regiment."

I took the helmet covering in my hand and examined it.

"The Germans wear those on their helmets to hide the shine" said the soldier. "Wouldn't take a thousand bits for that 'scalp'."

"What do you know about 'bits'?" "Lived in 'Frisco before the quake" he said.

Then he told me why all the injured seemed to be only slightly hurt.

"It's because it's only the fellows who can get away without help that are able to escape. We had to leave our wounded on the field. I've had some who were only shot in the feet beg me to kill them as we retreated, to save them from the Germans. You can't use your revolver on a comrade. The only thing we could do was to stick our fingers in our ears and keep on going, hoping that the Germans would come soon and make it easier for them. That is why the people are saying that our men and the French are only slightly wounded. If you're hurt so you can't move yourself, you're through—dead."

The next ten cars of the train were piled with old men and women. Some of them were incredibly old and bent. They came from the home of old folks at Malines and a nurse pointed out one woman who was more than 100 years old, and who had been alive when Napoleon's conquest of Europe was slipping away from him. These old folks, who years before, had quit their work and had found a quiet, peaceful corner in beautiful Malines in which to die, were being

dragged away by the Red Cross to save them from German shells, the few short days of their ending lives.

We drew into Ghent late in the evening. Soldiers and nurses took the helpless humans from the cars and started them in autos and rigs of all sorts for the Ghent hospital. They lifted down the two white sheeted forms and a black wagon took them away.

Even while this was being done and while the old folks waiting in wheel chairs were chattering like children about the Prussian war in 1870, the citizens of Ghent were crowding the depot, trying to get away from the city because they had heard that the Germans were coming.

"There's panic everywhere" said a would-be fugitive. "I can't find any place to live."

"And I can't find any place to die" chattered an old woman.

* LOST MORE TERRITORY *
* THAN HALF SIZE GERMANY. *

(By United Press.)

New York, Sept. 29.—Germany has lost territory more than half the size of the empire's area in Europe since the war began by the capture of her colonies.

The only German colony against which military operations have not been reported is Kamerun, which borders the Gulf of Guinea, in West Africa. The territory is partly surrounded by British, French and Belgian possessions and has a population of only 1,700 Germans in its 191 square miles. Its deadly climate for whites may be the reason why it has been unmolested.

The German colonies now occupied partly or wholly by the allies are:

Kaiser Wilhelm's land, area 70,000 square miles; Togoland, area 33,700 square miles; Samoan Islands, 1,000 square miles and Bismarck Archipelago, area 20,000 square miles, a total of 124,700 square miles.

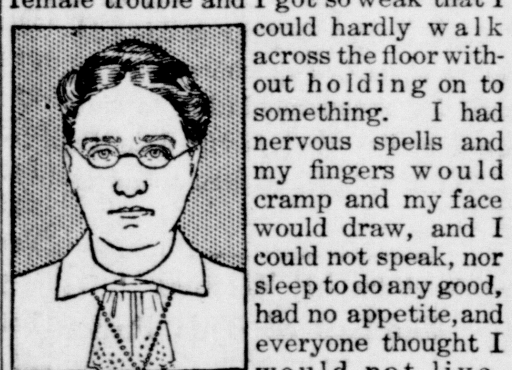

The European area of the German empire is 208,780 square miles. Colonies three and a half times this size are now being invaded, or shortly will be.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefitted by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CHANCE FOR SCHOOL CHILD

"Nations at War," Issued Fortnightly Will Give Them Chance to Get in Touch With Conflict

GIVES AN ACCURATE ACCOUNT

One Coupon and Twelve Cents Will Get the First Issue, Detailing Beginning of War

"The Nations at War," fortnightly publication of forty pages which gives a graphic account of the European war and which will be issued solely by the Daily Republican in Rush county, offers a rare opportunity for the school children of Rush county to get in touch with the conflict that is epoch-making.

As a rule school children are so absorbed in their school work and play that they pay little attention to current events. But here is an event that their children will study about in the years to come. They have an opportunity now to familiarize themselves with the war as it progresses. Many teachers will undoubtedly discuss it. "The Nations at War" is the publication that will supply the accurate story of this titanic struggle.

Do you know the true story of the great war in Europe? Do your children know it? If so, how about your children's children? You know they will be the future captains of industry. They will be the ones that should some day be telling their children about the great war of nations that aroused the entire world in the summer of 1914. According to a loose method of calculation, that will be about fifty or sixty years from the present time, and any child will then refer with pride to the thoughtful grandsire or great-grandsire who had the forethought to supply his offspring with an accurate story of the greatest war of all time.

But just now you and yours are the ones that want to know the facts that are marking an epoch in world history. "The Nations at War" will give this information accurately and fairly. It is to be issued every two weeks in parts of about forty pages each, printed on enamel paper from large, clear type and illustrated more elaborately than has ever before been seen in a work of this character. Part One is a fair example of what will follow, although subsequent parts will be even better, at least to the extent of practice making perfect. So clip your coupons and have them ready as the parts appear.

Every two weeks a new part will be issued and part number one will be ready this week.

 * SALVATION ARMY MEN *
 * ANSWER CALL TO ARMS. *

 (By United Press.)

London, Sept. 19.—(Mail to New York)—Hundreds of men from the Salvation army missions have answered the call of Lord Kitchener for service as loyally and promptly as those of more exalted stations in life and stories of the gallantry and bravery of the Salvationists are now coming back from the front.

One of the wounded served as a motor driver in the Royal Field Artillery. He was a bandsman in the Salvation Army before war was declared and told of hearing other former Salvationists singing the favorite songs on the battlefields at night. Telling of the fighting, the former bandsman said:

"Shells were bursting all around us and I was struck by a splinter. It was only a flesh wound, however, so I bound it up and went ahead with my work. First it seemed the enemy was getting the better of us, then they would retreat, and so the battle went all day. Comrades were falling all around me. The Germans were falling in hundreds. So thick were the dead of the enemy that when the order to advance was given we simply had to force the motor over the heaps of bodies."

Just Try Rheuma No Cure, No Pay

This is the Basis on Which All Drug-gists Offer This Great Cure For Rheumatism.

Anybody can afford to use Rheuma to get rid of terrible rheumatism, sciatica, or gout, for it is sold by F. B. Johnson & Co., and other druggists at a very small price. Your money returned if it fails.

It is wonderful how speedily this simple remedy takes hold and how sore muscles limber up and swollen joints come down to normal. It is the best remedy you can find to drive rheumatic poison from the system and bring back health to misery-racked bodies.

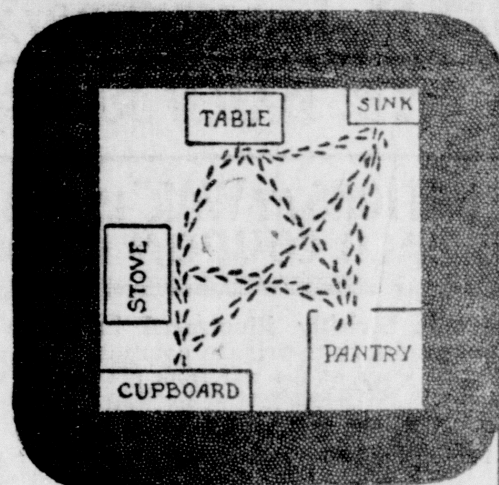

"I had rheumatism for a long while, and was not cured until I used Rheuma. My advice to those suffering from rheumatism is to use this great remedy, as I believe it will effect a cure in any case."—C. B. Latham, Sattes, W. Va.

Rheuma is also good for lumbago, neuritis, neuralgia, and kidney troubles. It gets right down to the seat of trouble and removes the cause.

¶ Enthusiasm and Publicity are assets to every prospective purchaser. That's the reason we prefer stamping the fact of our exceptional autumn preparedness upon your minds, to keeping it a secret.

¶ Still we deny our enthusiasm the privilege of running rampant. It is *not* our purpose to inveigle you into viewing merchandise that does not more than back up our printed talks with you.

¶ Does not the size of a display—the larger assortment of styles, colors, fabrics and size—mean something to you? We think it does. That premise has led us to bring to your doors a more lavish display than ever before of ladies' and misses' COATS, SUITS, DRESSES, SKIRTS AND WAISTS

We hope that our Opening Days were an education to you in all that is fashionably correct for autumn wear, and we now desire the opportunity of showing you personally and more thoroughly all the garments (not since sold) that were displayed in these days. It will be a pleasure to you to have an almost unrestricted choice, because the showing is so large.

¶ Will you come? Soon?

¶ There are a few children's coats, good snug winter coats, of last season's styles that are priced now at \$1.98 and \$2.98. They are splendid for school wear, and are cheaper than sweaters.

¶ The new Marchioness Coat, the beautiful Redingote Suit, the many charming varieties of Cape-coat Suits, all lend a fascination to this season of the year that will interest every woman who takes an interest in her personal appearance.
